

# LIBRARY HVAC/UPDATE

*Funds Allocated:*  
**\$1,500,000**

*Any funds not spent on HVAC will  
be used on interior renovations.*

## The facts:

- ✓ HVAC system in the library has reached the end of its life
- ✓ Building was built in 1972 and most of the HVAC equipment is original to the building.
- ✓ Needs new electric boiler
- ✓ Needs new air cooled chiller
- ✓ Needs new pumps, pipes and air equipment.

***The library needs new HVAC technology. This upgrade will not only ensure a comfortable environment for all visitors but also enhance the overall experience of patrons, creating a welcoming space for learning, research, and relaxation.***
