

MEDICAL DISTRICT IMPROVEMENTS

Funds Allocated:
\$2,100,000

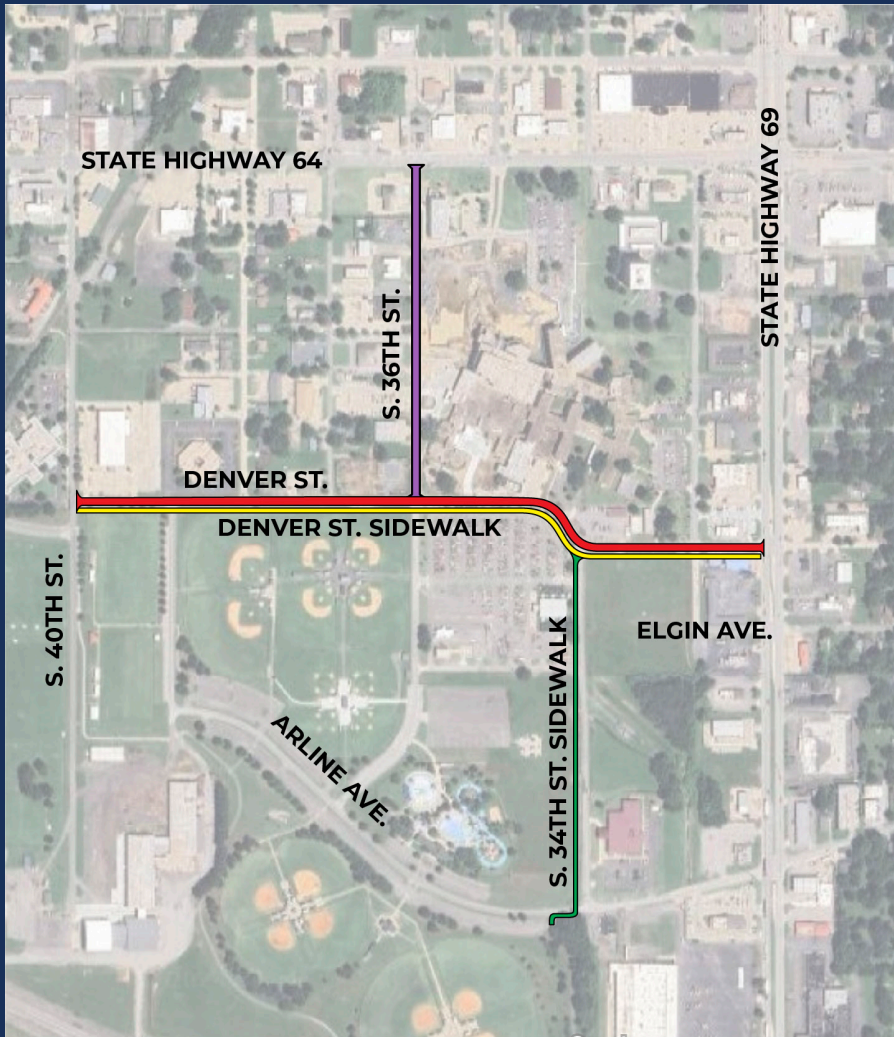

Needs:

- ✓ Denver Street reconstruction
- ✓ S. 36th St. reconstruction.
- ✓ Detention basin
- ✓ Denver Street sidewalk
- ✓ S. 34th St. sidewalk

These infrastructure enhancements are poised to significantly elevate the Medical District, fostering a safer, more accessible environment for patients, visitors, and medical professionals alike. The reconstruction of Denver and S 36th Streets, alongside the creation of sidewalks and a detention basin, will not only improve roadways and drainage but also promote active transportation and recreational activities. By bolstering connectivity and enhancing water management, these projects will directly contribute to the Medical District's functionality and appeal. With the support of an EDA Grant and the city's financial commitment, these improvements represent a crucial step towards realizing a vibrant, resilient, and thriving Medical District for the entire community.
